

Courses Designed, Constructed & Managed by The GF Sargent Companies

Montcalm Golf Club

Enfield, New Hampshire

Golf Digest America's Best New Course "Best New Private Course 2005"

"George Sargent did a fabulous job for us at Montcalm. His routing plan on a difficult piece of property has proven to work exceptionally well and we would never hesitate to recommend George or work with him on another project."

- Cam Brown, General Manager

Point Sebago RV and Golf Course Resort

Casco, Maine

Golf Digest 1996 #4 "Best New Affordable Courses"

Merrimack Country Club

Methuen, Massachusetts

"GF Sargent's program to upgrade the infrastructure at Merrimack Golf Club has been outstanding. Their dedication to quality and innovative design has preserved strategic features of this Donald Ross course for unique playability at all skill levels."

- Kevin Kattar, Manager

Stonebridge Country Club

Goffstown, New Hampshire

"Stonebridge Country Club continues to receive rave reviews from the golf media and those that have played the course."

- Ronald A Merino, CEO

Lochmere Country Club

Lochmere, New Hampshire

"George F. Sargent, Jr.'s input and expertise has helped us to create the best 18-hole course in the Lakes Region Area."

- Gerald Chaille, Owner

Riverbend Country Club

West Bridgewater, Massachusetts

"The course we built could not have come along without the efforts and professionalism of George F. Sargent, Jr."

- Gerard K. Cosby, Owner

CREATING QUALITY GOLF COURSES FOR OVER 35 YEARS...INCLUDING DESIGN, RESTORATION, MASTER PLANS, ENVIRONMENTAL IMPLEMENTATION/CONSULTING, GOLF COURSE CONSTRUCTION & SUPERVISION, GOLF COURSE MANAGEMENT

We take a hands-on approach to each project, working with you every step of the way to ensure success.

With a 35 year history in the golf industry, the GF Sargent Companies offer architectural golf course design, restoration and remodeling services to clients across the United States.

Most importantly, we understand that one of the keys to success for any golf operation is the financial sustainability of that course. We keep this in mind during all phases of the process and pay particular attention to the maintenance requirements and budgetary constraints throughout the project.

DID YOU KNOW...
George F. Sargent, Jr. is one of New England's only practicing golf course architects who can trace his lineage directly to the famed designer Donald Ross and his predecessor Old Tom Morris?

Our firm is committed to producing designs that blend with the natural excitement of the land, foliage and water surrounds. In addition to our award-winning designs, we have an extensive background in construction, maintenance and course operations, making us uniquely qualified to ensure success at each stage through project completion.

GF SARGENT DESIGN | Award-winning design, managed by real people.

Since 1990, our golf course designs have been acknowledged by the press and golfers nationwide. We continue to strive for excellence by working with nature's own beauty to create challenging, exciting, high quality courses across the United States. And where some other architectural firms will pass you on to a staff of assistants, with us you will work directly with the award-winning designers who will create your dream course.

GOLFSCAPES | We will build it and they will come.

Construction, renovation and restoration projects can seem daunting and unending. But with Golfscapes managing your construction project, you can sit back and enjoy the process. Our team of professional golf course construction managers, shapers, finish foremen and irrigation technicians will meticulously oversee every task from the first tee to the last green and ensure that your design specifications are met. We specialize in the arrangement of a playable course even during renovations, so you never have to experience a 'down' season.

LINKS MANAGEMENT | Running your course shouldn't run your life.

Ongoing management of a course requires planning, knowledge and skill as well as the ability to keep costs under control. Our management team will help to assess your needs, organize your requirements and keep your course in top condition throughout the playing season.

WHY CHOOSE GF SARGENT? | Because you won't trust your course to just anyone.

Most of our clients consider their courses to be their second homes. They want to be sure that their course is well taken care of in every aspect, and so do we. Whether we are responsible for the original design, renovation of a few holes or the management of the course, we consider each course we work on to be a special part of who we are. Let us do for you what we have done for so many other top courses and help create the golf course of your dreams.

ABOUT GEORGE F. SARGENT, JR.

~ A member of the American Society of Golf Course Architects since 1999, George has been credited with the design, construction and management of more than 20 courses.
